

ON THE SCENE: 'CONSERVE EARTH' AT THE ACADEMY

By John Berger

"Conserve Earth" was the theme, and a geometrical dome the focal point, as Atmarama, left, Lacy Matsumoto, G-Spot and Karina Rodrigues welcomed partyers to ARTafterDARK on Friday at the Honolulu Academy of Arts. Matsumoto conceived the theme of promoting awareness of environmentally friendly lifestyle choices, G-Spot provided the music and Atmarama built the dome. "We've been going out to different locations setting up this geometrical dome," he said, noting that domes are strong, economical and extremely durable housing.
